DREYFUS VERY HAPPY.

Said He Could Run and Jump For Joy.

HE DISOBEYED DOCTOR'S ORDERS.

Ate Forbidden Foods In His Desire to Have a Real Holiday—Had Note In His Rejoicing Was the Death of Schaefer-Kestner—Sent Wreath For His Bier.

CARLETON, Department of Vaucluis, France, Sept. 22.—Although the arrival of Dreyfus at the home of Paul Valadrome, his brother-in-law, who has been established as a cloth merchant here for a quarter of a century, was soon known, no demonstration occurred.

Madame Dreyfus is expected here. While Dreyfus' health does not permit of his receiving visitors, it is hoped the climate will restore his strength during the next few months, which he is expected to spend here.

LONDON, Sept. 22.—A correspondent of The Daily Mail who joined the Dreyfus party at Bordeaux and accompanied them to Carpentras, described Dreyfus as "thoughtful, prematurely aged, with soft eyes, a smile like a woman's, and rather the appearance of a savant than a soldier." When told of the great wave of British sympathy in his behalf he wrung the correspondent's hand and showed the deepest emotion.

His health, the correspondent says, is far from satisfactory. He ate most Wednesday for the first time. "It is against the doctor's orders," said Mathieu Dreyfus. "Ah," said the former captain of artillery, "let us have a holiday today. I will be so late and obedient again tomorrow."

"I am just like a boy now and feel that I could run and jump about the green fields for very joy. Just think! I shall now be able to laugh and play with my children in the beautiful country."

After the meal, despite his brother's half-languid protest, he smoked several cigars "to celebrate the holiday." The sad note amid the rejoicings was the death of M. Schaefer-Kestner.

"I am grieved beyond words," said Dreyfus, "to think that I shall never be able to thank that noble heart."

One of his first acts on obtaining his freedom was to have a wreath sent to be placed on the coffin of his champion and friend. At present he speaks little of past events. He says: "I have forgiven, but I cannot forget," and he intends to devote himself to proving his innocence. When that has been accomplished he will only ask to be allowed to spend the remainder of his days with his loved ones, far from the busy world.

"It is a delight at everything on the journey," continued The Daily Mail's correspondent, "was that of a man returning from the dead to the world he loves. The affection and solicitude of his brother are touching to see. His physical weakness causes the deepest apprehension to his friends. The journey was in the main uneventful except for a few expressions of disappointment on the part of people who endeavored to get a glimpse of him."

PARIS, Sept. 22.—The minister of war, General de Galliffet, addressed the following order to the corps commanders: "The incident is closed. The military judges, enjoying the respect of all, have rendered their verdict with complete independence. We all, without harboring after thought, bend to their decision. We shall in the same manner accept the action that a feeling of profound pity dictated to the president of the republic. There can be no further question of reprisals of any kind. Hence, I repeat it, the incident is closed. I ask you, and it is very necessary I should command you, to forget the past in order that you can think solely of the future. With you and all my comrades I proclaim a vive l'armee, which belongs to no party, but to France alone."

The order will be read to the troops throughout the French army.

A LIVELY CONVENTION.

Massachusetts Democrats Disagreed Over Method of Selecting National Delegates—A State Ticket Named.

Boston, Sept. 22.—There were lively scenes at the Democratic state convention here. The climax came when, at the request of the chairman, the captain of the police appeared upon the platform and placed his hand upon Congressman John E. Fitzgerald, in readiness to forcibly remove him from the platform had he not subsided and allowed the chairman to address and calm the excited assemblage.

The cause of the tumult, which raged for nearly three hours, was the question before the body accepting the action of the state committee in presenting a list of delegates to the national convention.

It was claimed by those who opposed the idea that it was against all precedent and robbed the various districts of their constitutional rights.

The personalities which were indulged in were directed as much against Congressman Fitzgerald as against Mr. Williams, the party leader, and hard names were called on both sides. The final result was the overwhelming passage of every motion and report that was made by the state committee and the election of national convention delegates, headed by Robert Treat Paine, Jr., and John H. Mack.

John E. Morrison of Lowell was nominated for attorney general, W. L. Ramsdell of Lynn for state auditor, Harry Lloyd of Boston for secretary of state and Joseph J. Flynn of Lawrence for state treasurer.

The platform reiterates the Chicago platform, pledges fealty to Bryan, condemns the administration's Philippine policy and favors treating them like the Cubans, favors direct legislation, the initiative and referendum and declares against life tenure in the judiciary.

HANNA AND McLEAN.

McLean Refers to Snuff in Stocks—Hanna Says Wage-Earner Is Not Affected.

CLEVELAND, Sept. 22.—Senator M. A. Hanna was shown a copy of a press dispatch from Cincinnati giving an interview with John R. McLean.

"So far as Republicans are concerned," said Mr. Hanna, "they are the beneficiaries of trusts or combines to no greater extent than is Mr. McLean and his Democratic friends."

"Mr. McLean's statement in reference to the heavy shrinkage in stock values during the past few days is simply ridiculous. The intrinsic value, or the earning power of the properties

themselves, has in no wise been changed by the slump in stocks.

Neither have the wages of the wage earner been affected."

Mr. Hanna declared that he had never mentioned the steel industry specifically as having been benefited more than any other industry under the present administration, but included in his statement all classes of trade.

CINCINNATI, Sept. 22.—In his interview, printed under a Columbus date, Mr. McLean said regarding Senator Hanna:

"Mr. Hanna says he does not fear trusts. Mr. Hanna and his associates are the beneficiaries of the trust or combine. He tells us, as if it were a great business achievement, that iron and steel have gone up in price. He dare not say that the Republicans have made prosperity by legislation, that they have brought around a state of affairs where everybody can make more money, but he picks out the steel men, one with a capital of \$200,000,000 and another of heaven knows what, and tells us what they sent out of their shops. What about the men who take it out of the plant? They comparatively only receive a little advance in wages. When the hard times do come, and come they will, the workmen will have nothing left."

"Mr. Hanna says prosperity is here to stay. What a refutation of what he says is found in the stock reports of yesterday, a shrinkage of \$256,000,000."

WARD BUILDING.

Miss Julia Cochrane Will Be Assigned to One.

The feeling of the Board of Education against Miss Julia Cochrane, the teacher who has declined to resign upon request of the board, is anything but pleasant.

Her case will be again taken up at the next meeting. It is proposed to assign her to teach in some ward building instead of at the High school. It is said, she will not do this and a lively controversy is liable to follow.

TO REMEDY TRUST PROBLEM

Recommendations suggested in the Resolutions Adopted by the Conference at St. Louis.

St. Louis, Sept. 22.—The delegates of the anti-trust conference remaining, Governors Shaw of Iowa and Thomas of Colorado, and Attorney General Taylor of Indiana, having gone home the evening before, adopted resolutions making recommendations in part as follows:

First—The enactment and enforcement both by the several states and the nation of legislation that shall adequately and fully define as crimes any attempted monopolization or restraint of trade in any line of industrial activity, with provision for adequate punishment, both of the individual or the corporation, that shall be found guilty thereof, punishment to the corporation to extent of its dissolution.

Second—The enactment by each of the states of the union of legislation for the adequate and proper control and regulation of corporations controlled by that state, and we recommend as efficacious a system of reports to, and legislation by, state authority of the corporation organized under its laws.

Third—The enactment by each state of laws that will prevent the entrance of any foreign created corporation into its limits for any other purpose than interstate commerce, except on terms that will put the foreign corporation on a basis of equality with the domestic created corporation of the state entered, and subject to the same laws, rules and regulations of the state.

Fourth—The enactment of state legislation, declaring that a corporation created in one state do business exclusively in other states than where created shall be prohibited from admission into any state.

This proposition is supported by decisions of the supreme courts of several states, but we believe it should become legislative enactment, uniform throughout the states.

Fifth—That no corporation should be formed in whole or part by another corporation.

Sixth—That no corporation shall own or have any stock in another corporation engaged in a similar or competitive business, and that no officer or director of a corporation shall be the officer or director of the owner of stock in another corporation engaged in a similar or competitive business, the object or result of which is to create a trust or monopoly.

Seventh—We recommend as the sense of this conference that each state pass laws providing that no corporation which is a member of any pool or trust in that state or elsewhere can do business in that state.

Resolved: That it is the sense of this conference that all of the capital stock of private corporations should be fully paid in cash, in lawful money, or second in priority of the actual cash value of the amount of capital stock; and that in all private corporations with a paid up stock, no stock in excess of the amount actually paid up be allowed to be owned by the shareholders shall be liable to be sold at twice the face value of the stock held by each.

LARGE PLANT

For Manufacture of Clay

Products.

Pennsylvania Has a Valuable Feeder In Ashland & Wooster Railroad.

The Pennsylvania Railroad Co. has secured a valuable feeder in the Ashland & Wooster railroad just opened up to freight traffic this week with passenger and express service to come in a few weeks, says the Plain Dealer.

While the Pennsylvania Company has not secured absolute control of the road, it has made arrangements to carry all of the freight at the same rates given at points on the main line, which practically gives Ashland and Wooster trunk lines.

The new road so far as completed is twenty-five miles long and traverses one of the most fertile valleys in Ohio. It now connects with the Pittsburg, Ft. Wayne & Chicago railroad at Shreve, and is to be completed soon into the Massillon coal fields if Wooster puts up \$10,000 for right of way.

H. E. Clark, for thirteen years freight agent at Apple Creek, has been transferred to Ashland. H. B. Camp, of Akron, president of the road, proposes to erect a large clay manufacturing plant, employing 200 men along the line, which is expected to be extended from here to Toledo or Sandusky. Connection with the Erie road is being made here now.

MUST PASS

An Examination Before the New Board.

All Local Teachers Will Be Required to Do So.

About six weeks ago at a Board of Education meeting Mr. W. E. Slabaugh made a vigorous complaint in reference to the manner in which teachers were allowed to teach, without taking an examination.

A new board of examiners has since been appointed and every teacher, who is teaching and has not passed an examination, will be called upon to do so.

Only one case has come to light. It is said the teacher has not taken an examination for three years. The present examiners will conduct their business in strict accordance with the law, which, it is alleged, has been violated in the past.

PRESIDENT TO MAKE SPEECHES.

Will Participate In Ohio Campaign En route on Chicago Trip.

WASHINGTON, Sept. 22.—President McKinley will probably make a few speeches in Ohio during the political campaign which is to be opened in that state tomorrow by Governor Roosevelt of New York and Judge Nash, the Re-

publican candidate for governor.

Representative Dick, chairman of the Ohio Republican committee, who is in Washington, suggested to the president that he make a few speeches on his way to or from Chicago next month, and it is the present intention of Mr. McKinley to comply with the request to the extent of making a few remarks from the platform of his train while enroute.
